

REMARKS

A. Overview

Claims 1-61 were pending in the present application. Claims 1 and 22 have been amended. Claim 2 has been cancelled and claims 62-78 are new. The present response is an earnest effort to place all claims in proper form for immediate allowance or better form for appeal. Favorable action is respectfully requested.

B. Allowed Claims

The finding of allowability of claims 23-61 is gratefully acknowledged.

C. Claim Objections

Claims 2-6 and 10 have been objected to but found allowable if rewritten in independent form including limitations of any base claim and intervening claims. Claim 1 has been amended to incorporate the contents of claim 2. It is therefore submitted to be allowable. Claim 2 has been cancelled. Dependent claims 3-22 are therefore submitted to be allowable as being dependent from an allowable independent claim.

New independent claim 62 incorporates the limitations of claim 10 and intervening claims 7, 8 and 9 with the original language of claim 1. It is therefore respectfully submitted to be allowable. New dependent claims 63-78 are based on original claims 3-6 and 11-22 and are submitted to be allowable as being dependent from an allowable independent claim.

D. Rejections of Claims

The Examiner has rejected claims 1, 7-9, 11-21 based on either Gordin, U.S. Patent No. 5,707,142 alone or in combination with McIngvale, U.S. Patent No. 4,918,582. These rejections are respectfully traversed. However, to prosecute the present application in form for allowance, it is respectfully submitted that all the claims now pending are in allowable form. This is without prejudice to pursue the rejected claims in a related application.

E. Substitute Specification

As suggested by the Examiner, a substitute specification is attached.
